Saloni's Beauty Solutions introduces a new skin care line called RIVAGE.

Rivage brings you skin care products high in rich minerals & vitamins extracted from the famous Dead Sea waters and mud. These unique products are composed of natural resources proven to stimulate and maintain healthy skin. Rivage skin care products are made from natural minerals, herbal extracts and essential oils. They help clarify, stimulate, nourish, and replenish the skin leaving it with a healthy glow and fresh younger appearance.

Rivage skin care products contain Magnesium, Potassium, Chloride, Bromide, Calcium, Sodium, and Iodine. Together these minerals react with the body by accelerating and regulating cell metabolism along with regulating water balance, balancing minerals in the body, healing and relieving skin disorders and stimulating the natural repair process. All minerals act together to improve the metabolic processes. This ensures that the skin functions normally and retains its healthy glow with a natural PH balance.

Rivage's appeal is in its inherited mineral-rich Dead Sea origin. Due to its holistic and hypoallergenic nature, its products can be used on even the most sensitive skin.

Being the saltiest body of water in the world, with seven times the salt of the ocean, the water of the Dead Sea contains 21 minerals, twelve of these are found in no other sea or ocean. The Dead Sea contains numerous water and thermo-mineral springs which makes it an unequaled source of hypertonic water. Since ancient times, the rich mineral mud and salts from the shores and waters of the Dead Sea have been celebrated for their remarkable effect on the skin. This location is noted for its rich mineral deposits which Rivage cultivated to produce the most effective treatments for health, beauty, and exhilaration.

Above all, Rivage products contain active ingredients that help to heal, relieve and soothe the symptoms of skin disorders such as acne, psoriasis, eczema, and dermatitis.

Rivage has a wide range of skin care products some of which are listed below. Please take a moment to review these and find the ones that suit your skin best.
